PROFILE

With over 4 years of experience as a Software Engineer, I am passionate about learning new technologies and enhancing my skills. I thrive in team environments, handle pressure effectively, and am committed to meeting deadlines. Seeking a new opportunity to contribute, grow, and advance my career.

WORK EXPERIENCE

Nashtech Vietnam Company Limited   2020 - 2022
Software Engineer

- Project: Achilles LTD
- Responsibilities:
  - Develop new features and collaborate with BA and QC to clarify user story requirements.
  - Populate new data into the database.
  - Write unit tests to ensure code quality.
  - Fix bugs and resolve issues.
  - Review code to maintain best practices and standards.
  - Assist QC in preparing data for testing when needed.

Bosch Global Software Vietnam   2023 - Present
Development Team Leader

- Project: CI-CAT
- Responsibilities:
  - Implement user stories and support team members by resolving technical issues or clarifying requirements with customers.
  - Provide guidance and assistance to team members facing challenges during user story implementation.
  - Contact and consult with colleagues to address obstacles that cannot be resolved internally.
  - Facilitate Scrum meetings, including Refinement, Sprint Planning, and Sprint Review.
